The aim of this post is to make your research a little easier. After reading this appi travels review you will be in the position to make an informed decision about whether or not you want to be a part of this company.

What is Appi Travels?

Appi Travels is a travel company combined with an affiliate marketing opportunity that helps to provide high levels of residual income for its affiliate members. Appi Travels has two main websites:

Appitravels.com – the Affiliate Site – and Appitravels.net – the travel site itself. You have the option to participate on either the Product Side (flights, hotels, etc), the Affiliate Program or Both. However, you will get to make huge earnings from choosing Both platforms.

The Product Side of Appi Travels: Appitravels.net

Members are able to book flights, hotels, car rentals at huge discounts, up to 75% OFF. As a member you get access to a huge variety of third party sites that are in partnership with Appi Travels. This is essentially what Appi Travels does: They seek out the best companies with the greatest discounts for their members. So you have this power house that contains the world's best sites in travel, hotel and car rentals so you do not have to spend time and money looking for these sites.

A very exciting feature about the product is that over and above the huge discounts you also get to use your travel points to get a further discount, in all three categories: travel, hotels and car rentals. Example: Let's say you get a flight ticket at a 60% discount through the Appi Travels portal, you still have the opportunity to reduce the price to a ridiculous amount, up to 100% discount, provided you have enough travel points.

This means you would be travelling for free. This is also applicable to hotel stays and car rentals. More on travel points later. Below is a video explaining how the travel portal works and how to go about making a booking.

How to Use the Appi Travels Portal to Get Discounts on Flights and Hotels

How to Access the Appi Travels Portal to Make Flight Bookings?

You have to be a member of Appi Travels in order for you to get access to all the features and the ability to save up to 75% on their products. Register [here](#) to become a member now.

Can I Make Money Through Booking Flights and Hotels for Other People?

This is a fantastic question because not only do you get to save on your own trips you also get to make money through other people just by booking for them. Example: Your friend is going on a trip overseas and the flight ticket costs \$1000 if they purchase directly from the flight company. But if you purchase through Appi Travels site it costs you \$700. So you can bargain with your friend that you will purchase the flight ticket for them at a discount provided they agree to pay you \$100 for saving them money.

In total your friend would only pay \$800 (flight ticket + your payment) instead of \$1000, saving them a whopping \$200; and you would make \$100. Who would say no to this offer? You can even charge them 50% of what they save, up to you.

Appi Sites – Make \$200 Commissions through Appi Sites

Are you tech savvy? If Not, no problem. You don't have to be. Appi Travels offers beautiful ready made websites that you can either sell or use as your own (for personal branding, to promote APPI, for your offline business, etc). There are more than 30 categories that you can choose from; they add 5 website categories every month so the list grows continuously.

You will save HUGE in discounts. The retail price is \$279 but you will get to buy it for either \$10 or completely free depending on your package in Appi Travels. As an Explorer you pay \$10 and as a Traveler and Navigator you don't pay a cent. See for yourself.

What Are Appi Sites and How Can You Buy One?

The Affiliate Side of Appi Travels: Appitravels.com

The affiliate program pays you daily depending on the efforts you and your entire team members put in. The most interesting part of their compensation plan is that as each of your referrals earn, you earn as well. You practically earn 100% of whatever your direct referrals earn daily (nothing beats that). You earn from your Direct and Indirect referrals up to Infinity:

Entry Packages Offered:

To get started with Appi Travels, there are 3 packages you can sign up for depending on your budget and marketing audience. They are:

- 1) Explorer package total cost of \$75 (+ Explorer Fund \$25 = \$100 in total).
- 2) Traveller package, total cost \$350 (+ Traveler Fund \$100 = \$350 in total).
- 3) Navigator package, total cost of \$550 (+ Navigator Fund \$250 = \$800 in total)

It is, however, recommended to upgrade to the Appi Fund before going to the next level. You will find out why.

Appi Travels Compensation Plan

Please watch the video below by the CEO – Danny Gauthier – for a thorough review of the breath taking compensation plan.

There are basically 7 ways to earn from appi travels:

- 1) Direct commissions (from direct referrals).
- 2) Pass up bonus (from indirect referrals).
- 3) Check match bonus (from total earnings of all direct referrals) RRMB.
- 4) Appi Fund (A 2x2 forced matrix).
- 5) Free travel points (awarded each time anybody in your structure earns).
- 6) Flight and hotel bookings (booking for others and charging a fee).
- 7) Appi Sites (Selling websites to small business owners).

So How Does It Really Work?

1) Direct Commissions-

👉 You get paid on every odd number of your direct referrals till infinity. That is (1st,3rd,5th,7th referrals...infinity)

So you earn \$25 or \$100 or \$250 from each of them depending on their selected package.

Your even number Referrals are passed on to your sponsor.

2) Pass Up Bonus-

👉 Just like the way you passed up all your even number referrals to your sponsor, your direct downlines also pass up all their even number referrals on to you.

That is (2nd,4th,6th,8th referrals...infinity).

So you earn \$25 or \$100 or \$250 from each of them depending on their selected package.

3) Check Matching Bonus-

👉 You get paid a 100% check match bonus on all your direct referrals (this time both the odds and even referrals on your structure).

That means if any of your direct referral earns \$200 Btc today, you also earn \$200 btc today just like that.

Isn't that amazing?

4) Appi Funds-

👉 The appi funds is simply a 2x2 forced matrix made up of just 6 people and this forms simultaneously on its own as you get direct referrals and pass up referrals on your normal structure.

The first two people that will be placed under you here will pay \$25 or \$100 or \$250 (depending on your selected package) to your sponsor, while the next 4 people that will be under them would pay same amount to you.

Once this happens you are automatically recycled and the matrix starts again...

That's continuous earning till infinity...

Watch the Video below Explaining How Appi Fund Works

5) Free Travel Points- 👉 If you earn \$25 btc today, you get 250 travel points.

If any of your referral earns 250 Points, you also earn 250 points which is 100% of whatever they earn. Now it is these travel points that when accumulated can then be used to book for hotels, flights abroad, car rentals etc. These points can also be cashed in for money, if for whatever reason you do not want to use them. 100 points equals \$1. You get to use 100% this equivalent if you use the points to book a flight, hotel etc. Meaning you will get a full credit (equivalent to your points) into your account balance.

However, if you decide convert your points into cash you will only get 50% of the cash value of your points. For example: If you have 5000 free travel points then you then you have an equivalent of \$50 provided you are going to use them for booking. However, if you just want to cash them in then you will only receive \$25 in earning balance.

6) Flight Bookings- 👉 You can earn by booking flights and hotel bookings for your friends at a cheaper rate (through the site) and negotiate a fee from their savings as your incentive.

7) Appi Sites- 👉 Earn by selling websites to small businesses and shop owners who are looking to take their business to the next level. You stand to make between \$190 – \$200 commissions on a single

website. These sites are already made for you. All you do is just edit, drag and drop. There's over 30 Categories to choose from.
